VISION

PAEPI as key player in People Empowerment for Sustainable Development
MISSION

Bringing Extension
to the Level of Discipline
and as a Profession
EXPANDED PAEPI MISSION

- Extension is one of the important trilogy of functions of higher education institutions. Vis-à-vis instruction and in light of recent technological advancement, extension complements and fill sin the gaps left by instruction specially for those who, for multifarious reasons, can not access formal instruction to gain individual transformation.

- Extensionists are employed in both government and non-government institutions to become agents of change. As agents of change, extensionists should process the appropriate knowledge, attitudes, skills and practices to effectively perform. Capability building if extensionist to meet the challenging tasks of changing people and communities becomes a continuous process. Furthermore, extensionists as agents of change must think and act as professionals and should be well-versed in the acceptable theories and practices of their job.

- To formalize the theories and principles of extension and integrate these into actual practice, PAEPI envisions to elevate extension to the level of discipline so that its practitioners, the extensionists, become well-equipped in the science and art of extension and to become wholly integrated professional extensionists. The demand is great for an extensionist who is a true professional in the execution of his duties and functions in the work environment. In the task of meeting this demand, PAEPI’s mission is to bring extension the level of discipline and as a profession by continuous research and capability building that will contribute significantly to the development of professional extensionists with tested practices grounded on acceptable theories, principles, approaches, methodologies and techniques of community extension.
GOAL

Empower People
For
Sustainable Development

THE OPTIMISTIC CREED

To be so strong that nothing can
   Disturbs your peace of mind.
To talk of health, happiness and prosperity
   to every person you need.
To make all your friends feel that
   there is something in them.
To look at the sunny side of everything
   and make your optimism come true.
To think only of the best, to work only for
   the best and to expect only the best.
To be just as enthusiastic about the success
   of others as you are about your own.
To forget the mistakes of the past and press on
   to the greater achievements of the future.
To wear a cheerful countenance at all times
   and give every living creature you meet a smile.
To give so much time to the improvement of yourself
   that you have no time to criticize others.
To be too large for worry, too noble for anger,
   Too strong for fear and too happy to permit
   The present of trouble.
EXTENSION CREED

Go to the people
Live with the people
Learn from them
Plan with them
Work with them
Start with what they know

Build on what they have
Teach by example, learn by doing
Not a showcase but a pattern
Not odds and ends but a system
Not piece meal but integrated approach
Not to conform but to transform
Not relief but release.
